GUIDE

METAL ON-DEMAND!

WE'RE YOUR METAL TITAN.

Metal Alliance has the metal you need, when you need it.

We stock one of the largest inventories of quality coil and flats in the Southeast. Ready-to-ship in the most widely used gauges and sizes, we offer the best selection of

colors and strongest partner warranties in the industry.

Whatever your requirements, we want to be the metal supplier you can count on, *every order, every day.*

WeatherXL™ SMP Coatings

Colors that Create a Lasting Impression

Created to withstand almost anything that comes its way, WeatherXL is a specially formulated silicone-modified polyester coating designed to go where it will be abused — maintaining extreme resistance to abrasion, chipping and marring with tremendous color and gloss retention. This cool finish also helps lower a structure's overall temperature, saving on energy costs.

Due to variations in monitors and browsers, representation of colors may appear differently than actual colors. To confirm color, order a metal sample prior to placing metal order.

NOTES ON AVAILABILITY

- Products, colors and sizes available are subject to change without notice.
- Contact Metal Alliance representative for current pricing and availability.
- Color chips shown on reverse side represent the actual color as closely as possible. To ensure color is accurate, request a metal sample.
- Material warranty information is available upon request.
- Custom colors and finishes available. Minimum charges and quantities may apply.
- Oil Canning is an inherent characteristic of light-gauge, cold formed metal products, does not affect the integrity of the panel, and is not a cause for rejection.
